While there are many differences between Revit and AutoCAD, both programs are often used within the same organization.. The main difference is that AutoCAD is primarily a drafting tool to create basic geometry that represents real life, while Revit is used to create geometry that's equipped with real-life information, hence the term, or BIM.. Right click on the file named 'config' and open it with TextEdit 7 Save the file. [total video converter for download free for windows 7](#)
