friday the 13th killer puzzle retro jason

Game shows promise, but it's glitchy as anything and there really isn't much content. For the price tage I'd say, give it a miss.

It's a fun twin stick shooter with cool RPG elements, but you'll find yourself maxed out in no time and out of new things to do within an hour. The game then devolves into repeating the mini game sover and over for no real reason.. I highly recommend this game for a few hours of casual fun. The game is ideal for those situations when you need to kill 10 or 15 minutes and have your computer handy. It will run on just about anything, the learning curve is about as steep as wooden shim, and you have automatic saves after every 5 minute round of bowling.. I can only imagine the madman who thought up this weapon. This game is NO LONGER BEING WORKED ON. so i do not recommend it and i want my money back. P L E A S E. [; E A S E!!!. f this game and developers, greedy f#cks, good job losing ur customer's trust w ur shady dlc vs expansions vs deluxe edition practices, shady non transparent @sshholes

I did not try with VR

The game starts pretty vague but enjoyable, and then continues to be really vague and some sort of horror game. It has not much content and a lot of the puzzles you have to solve or things you have to find are not well explained, this all combined with long speeches you have to hear that make you unable to run for a long time make me give this game a thumbs down.. Excellent game involving both economic and military tactics. Hot seat mode is wonderfully fun to play with a friend. Worst part of game is single player campaign mode. Heven't tried online mode. But when playing in the "hot seat" mode is a wonderful and rewarding time waster.. Wallpaper Engine with Live2D Support + Widget + 360 Videos

But, you can put things together by yourself.

"Create your own unique desktop."

Cons:

- Lack of content in Steam Workshop. Wish the developer would have stuck with this. Sequel sucks.

I would listen to The Tron: Legacy soundtrack while playing this. It was ♥♥♥♥in epic. And if your CPU can take it, you'll see some crazy stuff go down, in some HUGE galaxies. 100x better than Galactic Civ or Sins of a Solar Empire.

And if you get this, check out a mod called Galactic Armory. You are the editor of The Westport Independent with a oppressive government. You decide the future of your paper, employees and the country.

then this is the game for you
